

Reinhold Blümel
Charlotte Augusta Ayres Professor of Physics
Department of Physics, Wesleyan University,
265 Church Street, Middletown, CT 06459-0155
email: rblumel@wesleyan.edu

May 1, 2014

Table of Contents:	Page
I. Curriculum Vitae	1–2
II. Honors, Awards and Prizes	2–3
III. Funding Experience	3–4
IV. Structured List of Publications	4–15
V. Invited Talks	15–17
VI. Colloquium Presentations	17
VII. Visiting Scientist Appointments	18
VIII. Supervision of Thesis Research	18–19
IX. Postdocs Advised	19–20

I. Curriculum Vitae

a) Personal:

February 4, 1957:

Born in Augsburg, Germany.

January 2, 1992:

Marriage with Lynn A. Westling

b) Education:

November 1990:

Dr. habil. (Habilitation), Technical University Munich.

An academic degree beyond the Ph.D.

It certifies excellence in teaching and research.

December 1983:

Ph.D. in Physics (summa cum laude),

Technical University Munich.

c) Professional Experience:

July 2002 – present:

Professor of Physics, Wesleyan University.

January 1999 – June 2002:

Associate Professor of Physics, Wesleyan University.

October 1995 – December 1998:

Visiting Lecturer, University of Freiburg.

October 1994 – May 1995:

Consultant, Institute for Plasma Research,

University of Maryland.

July 1991 – September 1994:

Adjunct Associate Professor, University of Delaware.

September 1989 – June 1991:

Senior research associate with Professor W. P. Reinhardt,
University of Pennsylvania.

January 1987 – August 1989:

Research associate with Professor H. Walther,
Max-Planck-Institute for Quantum Optics, Munich.

January 1985 – December: 1986

Research assistant with Professor K. Dietrich,
Technical University Munich.

January 1984 – December: 1984

Post-Doctoral fellow with Professor U. Smilansky.
The Weizmann Institute, Rehovot, Israel.

II. Honors, Awards and Prizes

January 1983: MINERVA Prize.

Funding for a three-months stay at
the Weizmann Institute of Sciences

February 1991: HEISENBERG Scholarship

This prestigious fellowship rewards outstanding accomplishments
in scientific research.

Less than five scholarships per year are awarded in physics
based on a nation-wide contest.

In funding (\$250,000), duration (5 years) and scope this scholarship
is comparable to a Mac Arthur “genius award”.

October 2000: PECASE Award

The Presidential Early Career Award for Scientists and Engineers (PECASE)
was established by President Clinton in 1996.

It consists of \$500,000 in research funding over a time period of 5 years.

“The Presidential Award is the highest honor bestowed by the US government
on outstanding scientists and engineers beginning their independent careers.”
(W. J. Clinton).

May 2003 – May 2005: President of TAMOC

TAMOC (Theoretical Atomic, Molecular and Optics Community) is a pro-
fessional organization of theoretical physicists of the Division of Atomic,
Molecular and Optical Physics (DAMOP) of the American Physical Society.
TAMOC acts as a liaison between Congress, U.S. funding agencies, U.S. uni-
versities and the scientists it represents.

September 2003: Fellow of the American Physical Society
Only a maximum of 1/2 of one percent of the current membership of the American Physical Society is elected Fellows per year.

July 2006: Appointed to Named Chair
Charlotte Augusta Ayres Professor of Physics.

III. Funding Experience

June 1988:

Project: Nonlinear Dynamics
Funding Agency: Volkswagen Foundation.
Grant Volume: \$90,000
Grant Period: 3 years.

September 1988:

Project: Chaotic Scattering
Funding Agency: German-Israeli Foundation.
Grant Volume: \$200,000
Grant Period: 3 years.

February 1991:

Project: Heisenberg Scholarship
Funding Agency: German Research Council
Grant Volume: \$300,000
Grant Period: 5 years.

January 1992:

Project: Wave Chaos
Funding Agency: U. Delaware Research Foundation
Grant Volume: \$20,000
Grant Period: 3 years.

May 1997:

Project: Ray Splitting
Funding Agency: German Research Council
Grant Volume: \$54,000
Grant Period: 2 years.

December 1997:

Project: Wave Chaos
Funding Agency: Federal Department for Science and Research
Grant Volume: \$30,000
Grant Period: 1 year.

October 1997:

Project: Artificial Atoms
Funding Agency: German Research Council

Grant Volume: \$80,000
Grant Period: 3 years.

July 1999:

Project: Ray Splitting
Funding Agency: National Science Foundation
Grant Volume: \$80,000
Grant Period: 2 years.

June 2000 – May 2003:

Project: Certificate Program in Computational Sciences
Funding Agency: Wesleyan Fund for Innovations
Grant Volume: \$38,000
Grant Period: 3 years.

July 2001 – June 2006:

Project: CAREER/PECASE: Classical and quantum dynamics of trapped charged particles
Funding Agency: National Science Foundation
Grant Volume: \$500,000
Grant Period: 4 years + one year (2005/2006) no-cost extension.

July 2012 - June 2015:

Project: Hyperspectral Imaging in Biophysics and Energy Physics
Funding Agency: Research Council of Norway
Grant Volume: \$500,000
Grant Period: 3 years

IV. Structured List of Publications

A. Refereed Papers

- 1) R. Blümel and U. Smilansky, “Quantum Mechanical Suppression of Classical Stochasticity in the Dynamics of Periodically Perturbed Surface-State-Electrons”, *Phys. Rev. Lett.* **52**, 137–140 (1984).
- 2) R. Blümel and U. Smilansky, “Suppression of Classical Stochasticity by Quantum Mechanical Effects in the Dynamics of Periodically Perturbed Surface-State Electrons” *Phys. Rev.* **A30**, 1040–1051 (1984).

V. Invited Talks at International Conferences

- 1) “Ionization of H-atoms below the classical chaos border”, Adriatico Research Conference on Quantum Chaos, ITCP, Trieste, June 16–20, 1986.
- 2) “Excitation and Ionization of highly excited H-atoms: A test-case for Quantum Chaos”, Dynamics Days, Düsseldorf, June 10–13, 1987.
- 3) “Ionization of Rydberg atoms above and below the classical chaos border”, International Workshop on H-Ionization, Riga, June 1987.
- 4) “Rydberg atoms in strong microwave fields”, Third Gentner Symposium on Physics, Malente, Schleswig-Holstein, May 30 – June 3, 1988.

- 5) “Ionization of Rydberg atoms by noisy microwave fields”, International Symposium on “Atoms in strong fields”, Grainau, September 5–9, 1988.
- 6) “Few-body phase transitions in a Paul-trap – experimental and theoretical results”, International Workshop on Crystalline Ion Beams, Wertheim, October 4–7, 1988.
- 7) “Phase transitions of stored laser cooled ions”, Meeting of the American Optical Society, Santa Clara, Nov. 4, 1988.
- 8) “Excitation and ionization of Rydberg atoms by (noisy) mono- and bichromatic microwave fields”, Fundamentals of Laser Interactions II, Feb. 26 – March 4, 1989.
- 9) “The Physics of Laser Cooled Stored Ions: Phase Transitions in a System with only a Few Degrees of Freedom”, Sixth Rochester Conference on Coherence and Quantum Optics, June 26–28, 1989.
- 10) “Quantum Irregular Scattering”, Second Drexel Workshop on Quantum Nonintegrability, Dec. 6–9, 1989.
- 11) “Quantum Chaotic Scattering”, SIAM Conference on Dynamical Systems, May 7–12, 1990.
- 12) “A New Class of Ion Crystals in a Paul Trap”, International Conference on Nonlinear Dynamics in Optical Systems, June 4–8, 1990, Afton, Oklahoma.
- 13) “Quantum Chaotic Scattering”, Gordon Conference on Nuclear Chemistry, June 18–22, 1990, Colby-Sawyer College, New London, New Hampshire.
- 14) “From Hydrogen to Helium”, International Conference and Workshop on Quantum Aspects of Nonlinear Systems, Nordkirchen, Germany, July 15–20, 1990.
- 15) “Ion Crystals in a Paul Trap: Regular and Chaotic Dynamics”, Gordon Conference on Atomic Physics, August 12–17, 1990, Proctor Academy, New Hampshire.
- 16) “Quantum Chaotic Scattering”, Bad Honnef, Feb. 18–21, 1991.
- 17) “Exotic Fractals and Atomic Decay”, International School Enrico Fermi, Villa Monastero, Varenna, July 23 – August 2, 1991.
- 18) “Quantum Chaos”, Third Drexel Symposium on Quantum Nonintegrability, Philadelphia, Pennsylvania, May 20–22, 1992.
- 19) “Symmetry and Localization in Quantum Chaotic Systems”, International Workshop on “Chaos in Quantum Mechanics – Experiment and Theory”, at the Institute for Theoretical Atomic and Molecular Physics, Harvard Smithsonian Center for Astrophysics (ITAMP), Sept. 30 – Oct. 2, 1993.
- 20) “Introduction to Chaos in Particle Traps”, Nobel Pre-Symposium 91, August 19 – August 20, 1994, Lysekil, Sweden.
- 21) “Nonlinear Dynamics of Trapped Ions”, Nobel Symposium 91 on “Trapped Charged Particles and Fundamental Physics”, Lysekil, Sweden, August 21 – August 26, 1994.
- 22) “Ray Splitting and Quantum Chaos”, Winter School on Quantum Chaos and Applications, Weizmann Institute, Feb. 18 – 23 (1996).
- 23) “Quantum Implications of Ray Splitting”, Quantum Optics IV, Jaszowiec, Poland, June 17 – 24, 1997.

- 24) “Hydrogen Rydberg Atoms in Strong Microwave Fields”, Winter-School and Workshop on Photo-Induced Nonlinear Dynamics in Strong Laser Fields, Technion and MINERVA Center for Nonlinear Physics, Israel, February 22 – 27, 1998.
- 25) “Nonlinear Dynamics in Ion Traps”, International Conference on “Trapped Charged Particles and Fundamental Physics”, Monterey, California, USA, August 29 – September 4, 1998.
- 26) “Ionization of hydrogen Rydberg atoms: classics, semiclassics, quantum mechanics”, Symposium on *Classical, semiclassical and quantum mechanics in atomic physics*, Bonn, Germany, March 2000.
- 27) “Chaos and ray splitting in microwave cavities”, EuroEM2000, Edinburgh, Scotland, May 28 – June 2, 2000.
- 28) “Ray-Splitting Correction to the Weyl Formula: Experiment versus Theory”, March Meeting of the American Physical Society, Montreal, Canada March 22 – 26, 2004.

VI. Colloquium Presentations

- 1) Physik Kolloquium in Bayreuth, Germany, on “The Manifestations of Quantum Chaos in the Excitation and Ionization of Highly Excited Rydberg Atoms”, December 1987.
- 2) Physics Colloquium in Stony Brook, SUNY, on “Chaos in Atomic Physics: Ions, Atoms, Molecules”, October 1988.
- 3) Departmental Colloquium in Albuquerque, UNM, on “Chaos in Atomic Physics: Ions, Atoms, Molecules”, Nov. 4, 1988.
- 4) Tandem Kolloquium in Erlangen, Univ. Erlangen-Nürnberg, Germany, on “Irregular Scattering”, Dec. 15, 1988.
- 5) Physics Colloquium of the Weizmann Institute, Rehovot, Israel, on “Phase Transitions of Laser Cooled Ions in a Paul Trap: An Interesting Nonlinear System with only a Few Degrees of Freedom”, April 1989.
- 6) Physics Colloquium at Drexel University, Philadelphia, on “Chaos in Atomic Physics: Ions, Atoms, Molecules”, Sept. 14, 1989.
- 7) Physical Chemistry Graduate Research Colloquium at The University of Pennsylvania, on “Phase Transitions of Laser Cooled Ions in a Paul Trap”, Dec. 1, 1989.
- 8) Swarthmore College Physics and Astronomy Colloquia, on “Ion Trapping”, Dec. 7, 1989.
- 9) Physics Colloquium at the University of Delaware, on “Quantum Chaos”, February 26, 1992.
- 10) Festkolloquium aus Anlaß des 60. Geburtstages von Professor K. Dietrich, Sektion Physik, Ludwig-Maximilians-Universität, München, May 6, 1994.
- 11) Departmental Colloquium, Laval University, Ste. Foy, Canada, on “Ray Splitting”, December 2, 1997.
- 12) Theory Colloquium, Technical University Munich, on “Ray Splitting”, February 18, 1998.

- 13) Physics Colloquium at Drexel University, on “The Crystron”, February 2000.
- 14) Physics Colloquium at North-Eastern University, Boston, on “Quantum Chaos”, November 2, 2000.
- 15) SPS Colloquium at the Physics Department of The University of Connecticut, April 30, 2004.
- 16) Chair’s Colloquium, Wesleyan University, October 11, 2007.
- 17) Chair’s Colloquium, Wesleyan University, September 25, 2008.
- 18) Chair’s Colloquium, Wesleyan University, November 19, 2009.
- 19) Departmental Colloquium, Laval University, Ste. Foy, Canada, on “Code Breaking with Quantum Computers”, December 10, 2013.

VII. Visiting Scientist Appointments

- 1) March 1983 – June 1983: Department of Nuclear Physics, The Weizmann Institute of Sciences, Israel.
- 2) January 1984 – November 1984: Department of Nuclear Physics, The Weizmann Institute of Sciences, Israel.
- 3) December 1984: Balliol College, Oxford University, England.
- 4) October 21 – 31, 1985: Department of Nuclear Physics, The Weizmann Institute of Sciences, Israel.
- 5) January 7 – February 25, 1988: Department of Nuclear Physics, The Weizmann Institute of Sciences, Israel.
- 6) October 31 – November 18, 1988: Department of Theoretical Physics, University of New Mexico, Albuquerque, USA.
- 7) March 21 – April 19, 1989: Department of Nuclear Physics, The Weizmann Institute of Sciences, Israel.
- 8) May 14 – 25, 1990: Department of Nuclear Physics, The Weizmann Institute of Sciences, Israel.
- 9) October 1 – December 15, 1992: Department of Physics, State University of New York at Stony Brook, USA.
- 10) March 9 – 23, 1994: Department of Complex Systems, Weizmann Institute of Sciences, Israel.
- 11) August 17, 1994 – August 17, 1995: Department of Physics, State University of New York at Stony Brook, USA.
- 12) January 14 – 21, 1996: Department of Complex Systems, Weizmann Institute of Sciences, Israel.
- 13) November 27 – December 4, 1997: Department of Physics, Laval University, Canada.
- 14) August 13 – August 20, 1999: Department of Physics, Freiburg University, Germany.
- 15) August 2012: University of Life Sciences, Norway.

VIII. Supervision of Thesis Research

Gabriele Jaeckel, Max-Planck-Institute for Quantum Optics,
Diploma completed: September 1988.

Cornelia Kappler, Max-Planck-Institute for Quantum Optics,
Diploma completed: October 1989.

Claus Hillermeier, Max-Planck-Institute for Quantum Optics,
Ph. D. completed: July 1991.

Michael Moore, University of Delaware,
B. A. completed: April 1992.

Muhammed Thaha, University of Delaware,
Ph. D. completed: May 1994.

Wei Fan, University of Delaware,
M. A. completed: May 1994.

Achim Kohler, Freiburg University,
Ph. D. completed, summa cum laude, December 1998.

Gerhard Killesreiter, Freiburg University,
Diploma completed: October 1998.

Boris Reusch, Freiburg University,
Diploma completed: December 1998.

Till Vorrath, Freiburg University,
Diploma completed: January 1999.

Tobias Schneider, Freiburg University,
Diploma completed: November 1998.

Thomas Clausen, Wesleyan University,
Ph.D. completed: September 2002.

Lenny Eusebi, Wesleyan University,
Masters Thesis completed: April 2002.

Ian Garrick-Bethell, Wesleyan University,
Senior Thesis completed (High Honors): April 2002.

Guy Geyer, Wesleyan University,
Certificate in Informatics and Modeling,
Thesis completed: April 2011.

Dirk Miller, Wesleyan University,
Zulassungsarbeit (MA) completed: May 2011.

Yun Seong Nam, Wesleyan University,
Senior Thesis completed (High Honors): April 2012.

Yun Seong Nam, Wesleyan University,
Ph.D. started: September 2012.

Eric B. Jones, Wesleyan University,
Ph.D. started: September 2013.

IX. Postdocs advised

Dr. Harel Primack, October 1997 – September 1999.

Dr. Yuri Dabaghian, January 2000 – July 2003

Dr. Vladimir Savichev, April 2001 – September 2002

Dr. Thomas Clausen, October 2002 – June 2004

Dr. Amarjeet Singh Bhullar, September 2004 – September 2005

Dr. Rozalia Lukacs, October 2012 –
